REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or fairly teach that movement from one contact zone to another contact zone on the tool comprises movement of the tool relative to the workpiece along at least one axis of motion on the machine, the repositioning of the plurality of coolant nozzles being synchronized with the movement of the tool along the at least one axis wherein a defined amount of movement of the tool yields a predetermined amount of repositioning movement of the plurality of coolant nozzles. The closest art, to Eckardt et al, teaches repositioning the nozzles dependent on the position of the workpiece and not on the position of the tool as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to M Rachuba whose telephone number is 571-272-4493. The examiner can normally be reached on Monday-Fridays.
